START A SHIFT WITHOUT REGISTERING A DRIVER

If your details have not been entered into the web portal, then a new shift can be started with the following steps.

Step 1

Menu Screen → Tap *Start Shift*

Step 2

Tap *Other Diver*.

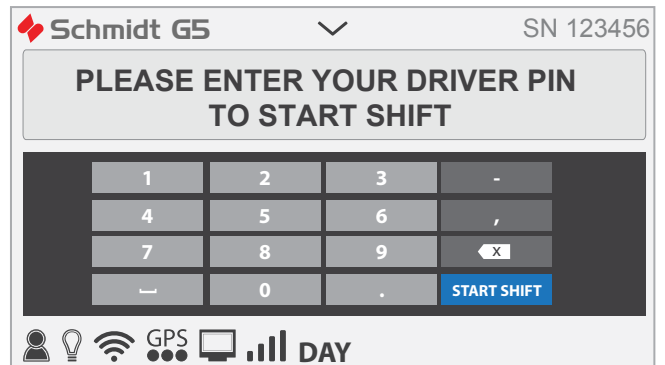

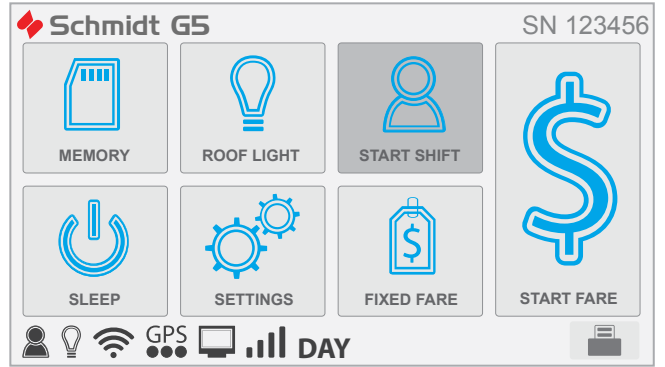

Step 3

At the driver detail screen, leave each field blank and tap *Next* to scroll through the information fields until *Done* is displayed. Tap *Done*.

Step 4

If you are asked for a PIN, leave it blank and tap *Start Shift*

Shift Icon will change to On Shift 

START A SHIFT WITH A REGISTERED DRIVER

Step 1

The Operator can register drivers on the G5 Web Portal by entering their details including their ABN. This is the recommended way to use the G5 meter.

Log in security options can also be selected for each meter. These are:

- Driver uses a Driver Card
- Providing each driver with a PIN
- No log in security

The rest of the steps are done on the G5 meter.

Step 2

Menu Screen → Tap *Start Shift*

Step 3

For an existing driver

- Select your name from the Driver List and skip to Step 5

When logging on for the first time

- Tap *Other Driver*

To Edit a Driver

- Press-and-hold the name on the list

Step 4

Enter your details

- Enter your ABN. If the meter is online the rest of the your details will appear automatically.
- Tap *Next* to scroll through each item until Last Name is selected then tap *Done*.

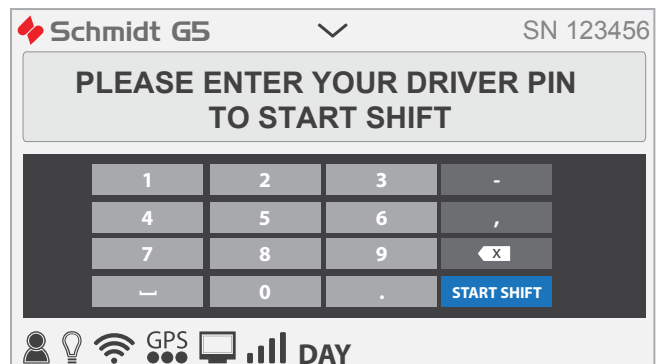

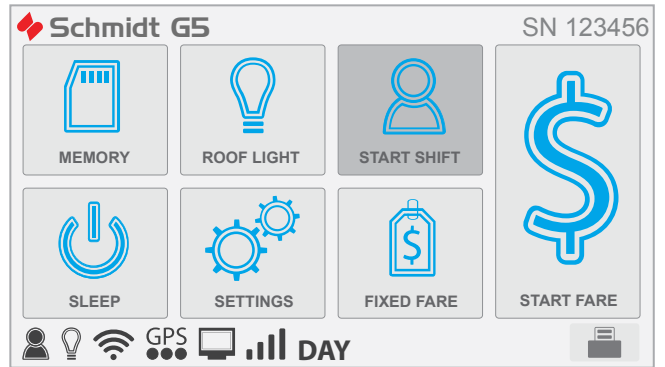

If the meter is not online, enter you details manually then tap *Done*.

Step 5

Enter your PIN if it is required

Tap *Start Shift*

The Shift Icon will change to On Shift 

START A FARE

Step 1

Menu Screen → Tap *Start Fare*

The meter will switch to the Fare Screen and will begin a Fare

Step 2

If local regulations permit manual entry:

- Change Tariff: Tap the *Tariff* display
- Add Tolls: Tap the *Toll* display
- Add Extras: Tap the *Extras* display

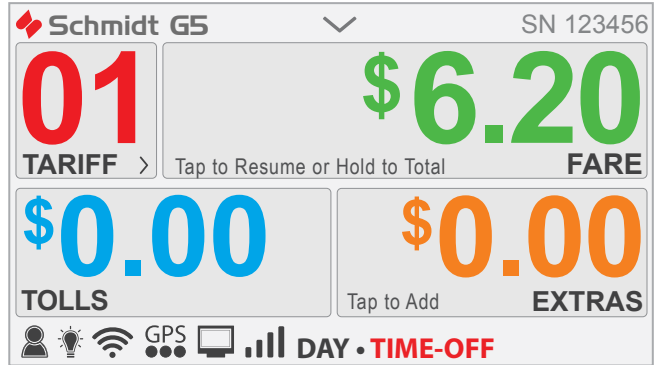

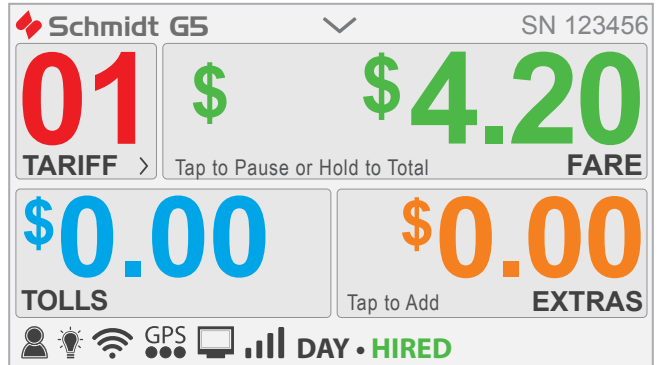

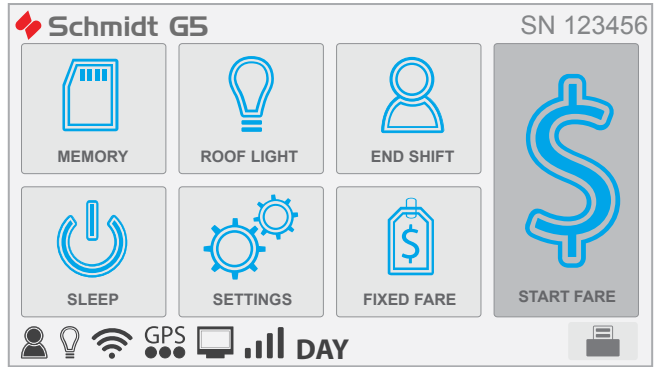

Methods of editing these items will vary depending on your local regulations. Often these will be automated.

Step 3

To pause the fare

- Tap the *Fare* display
- (Tap again to Resume)

When a fare is paused the Status Bar will display **TIME OFF**

START A FARE

Step 4

Total the fare

- Tap & Hold the *Fare* display
- (Tap & Hold again to Resume)

Step 5

End the fare

- Tap **End Fare**

* Depending on local regulations, there may be a Flashing Fare Display.

Step 6

Print a receipt

- Tap 

Step 7

Clear the fare

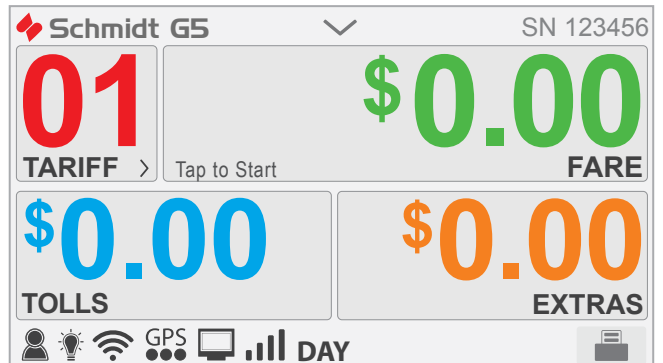

- Touch the left side of the screen and swipe from left to right

Step 8

From the Fare Screen a new fare can be started by tapping the *Fare* display.

End Fare

END A SHIFT

Step 1

Menu Screen → Tap End Shift

Step 2

The Shift Money will be displayed.

- Tap the screen to continue

Step 3

Other Revenue

- Enter any other revenue
- Tap ✓

Step 4

Shift Reconciliation details

Some items can be edited.

- Scroll through items on the left of the screen
- Change an item amount and tap ✓ to continue to the next item
- Tap Next **NEXT** to continue to the next screen
- Tap Back **BACK** to go back a screen

Step 5

Enter these details if displayed:

1. Shift Money – **Displayed Only, cannot be edited**
2. Other revenue
3. Total Shift Revenue – **Displayed Only, cannot be edited**
4. Shift Operator Revenue
5. Non-Cash Items
6. Fuel Cash \$
7. Fuel Cash Litres
8. Fuel Credit \$
9. Fuel Credit Litres
10. Operator Fuel %
11. Expenses
12. Total Cash Pay-In – **Displayed Only, cannot be edited**

Tap Next to continue or back to edit the figures

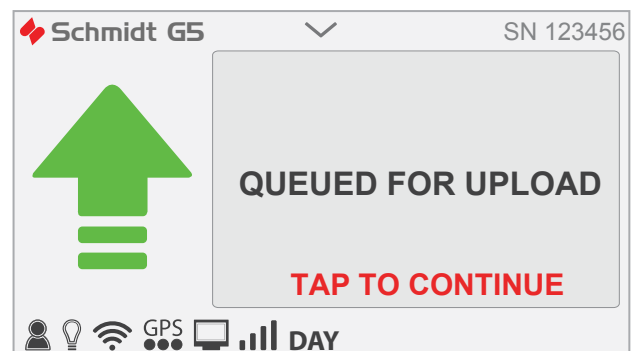

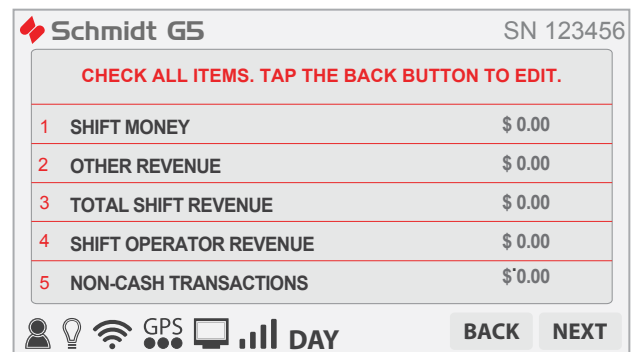

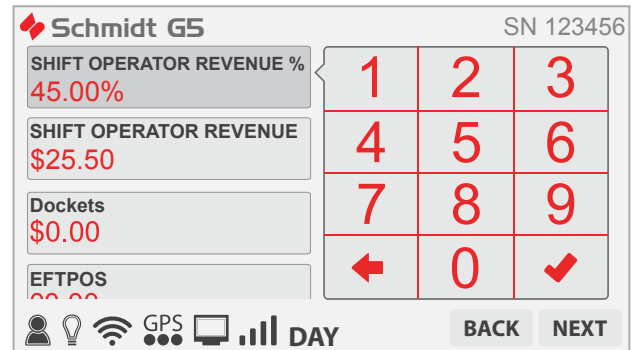

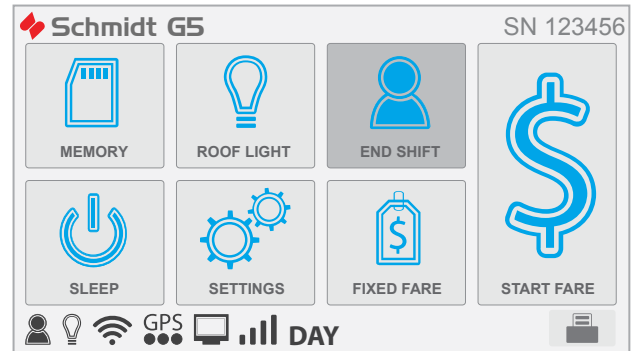

Step 6

Uploading / Printing

The upload screen will be displayed and a shift receipt will be printed. Tap the screen to continue.*

The shift icon will return to Off Shift.

* These functions will vary depending on how the operator has set up the G5 Taximeter in the G5 Web Portal.

FIXED FARE

Some jurisdictions allow Fixed Fares to be displayed on a taximeter.

Step 1

Menu Screen → Tap *Fixed Fare*

The Fare Screen will open

Step 2

Change Tariff: Tap the *Tariff* display box

Methods of editing these items will vary depending on your local regulations

Step 3

Set the fare price

- Tap the *Fixed Price Fare* display box
- Enter the fare
- Tap ✓

Step 3

Total the fare

- Tap & Hold the *Fare* display box
- (Tap & Hold again to Resume)

Step 4

End the fare

- Tap **End Fare**

* Depending on local regulations, there may be a Flashing Fare display.

Step 5

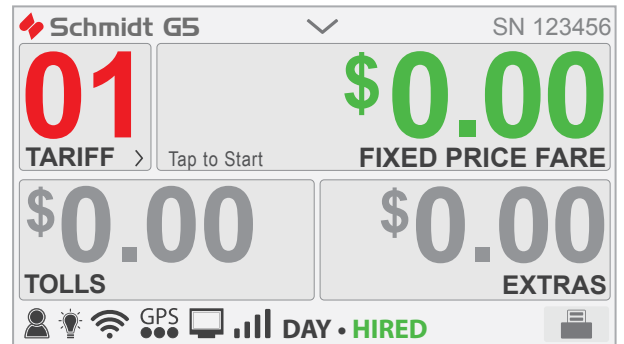

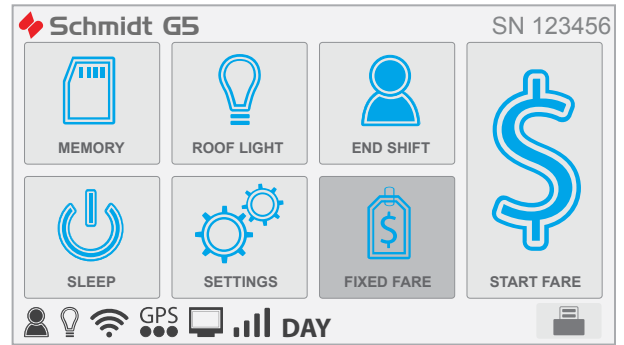

Print a receipt

- Tap 

Step 6

Clear the fare

- Swipe from left to right

DISPLAY BRIGHTNESS AND NIGHT MODE

Step 1

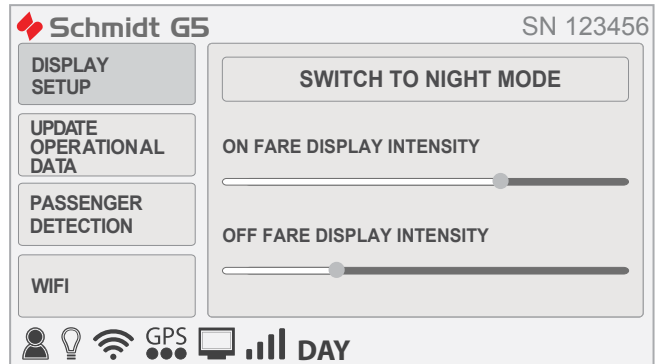

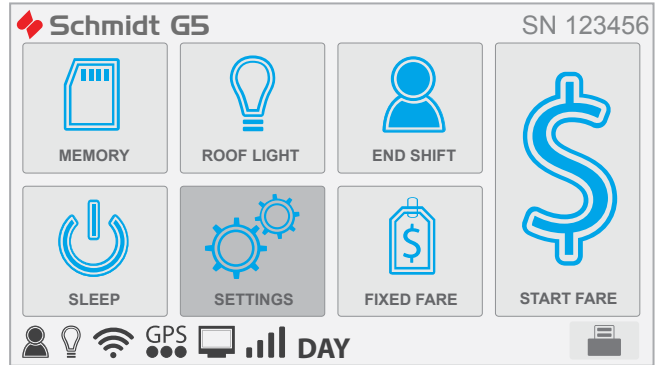

Menu Screen → Tap *Settings*

Step 2

Slide the scale to change the display brightness.

Step 3

Tap *Switch to Night Mode* to enter Night Mode.

UPDATE OPERATIONAL DATA

Operational Data – includes Fare Rates, Public Holiday Rates, etc.

Step 1

Menu Screen → Tap *Settings*

Step 2

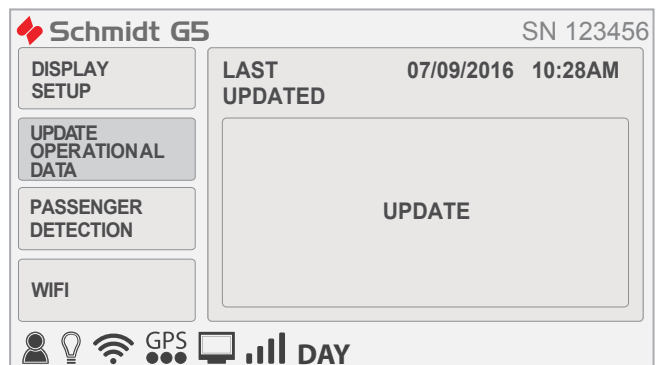

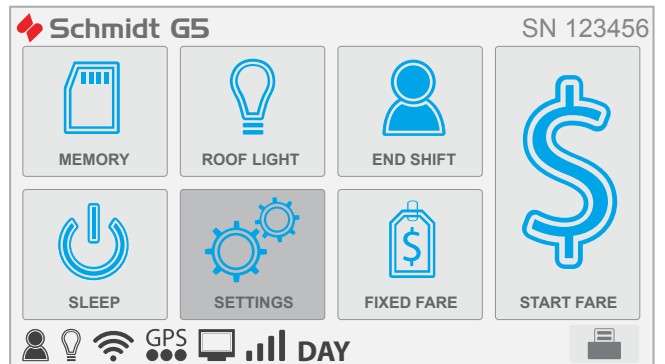

Tap *Update Operational Data*

Step 3

Tap *Update*

If the 'Sever Disconnected' icon is displayed, check your 3G or WiFi connection.

PASSENGER DETECTION

Step 1

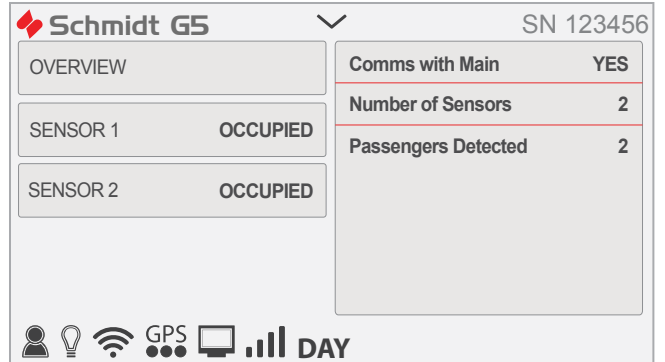

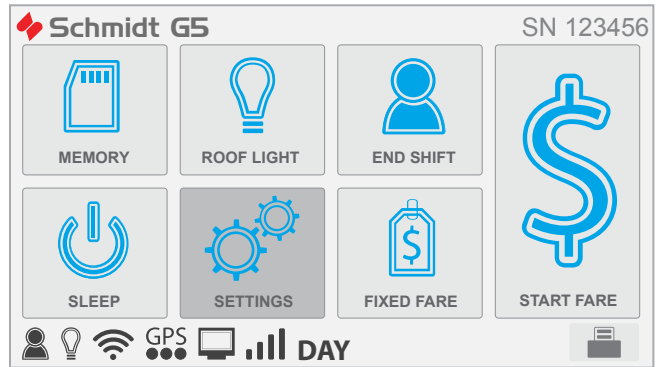

Menu Screen → Tap *Settings*

Step 2

Tap *Passenger Detection*

This setting is used to ensure that the passenger detection is working properly. The system is working if:

- Comms With Main displays YES
- The correct number of sensors is displayed
- There is one sensor per seat. The sensor displays OCCUPIED when there is a passenger in the seat and displays VACANT when a passenger is not in the seat.

CONNECT TO WIFI

The standard G5 meter has 3G instead of WiFi. If you own a G5 Taximeter with WiFi it can be connected to your WiFi Network to upload Shift Data to the G5 Web Portal

Step 1

Menu Screen → Tap *Settings*

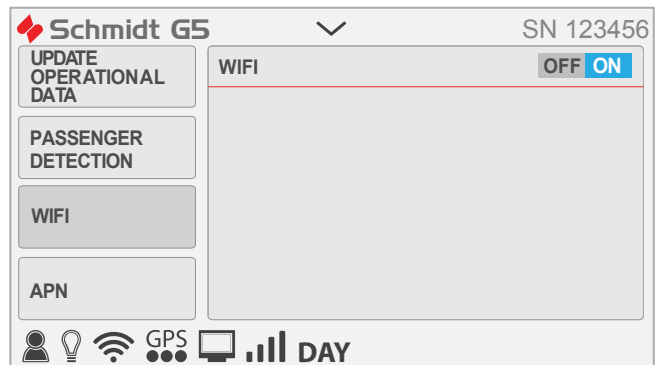

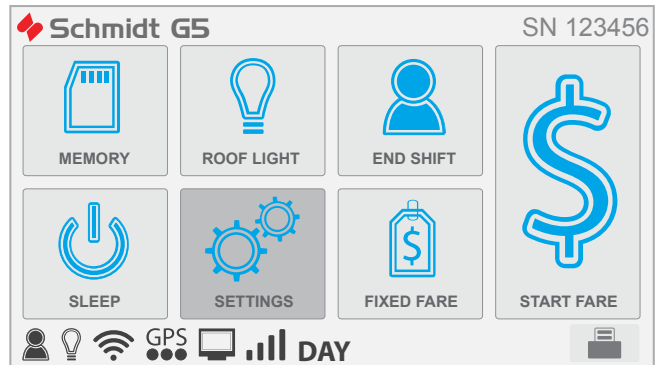

Step 2

Tap *WiFi*

Step 3

(Ensure WiFi is turned on)

Select the WiFi Network and enter password if required.

MEMORY MENU

Step 1

Menu Screen → Tap *Memory*

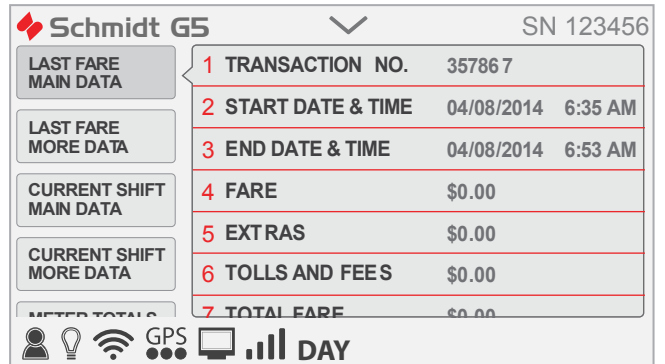

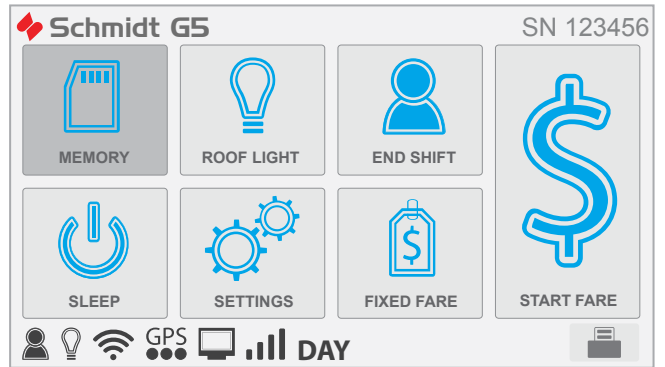

Step 2

Select one of the Memory Categories on the left or scroll down to view more Categories.

There are 7 Memory Categories:

- Last Fare Main Data
- Last Fare More Data
- Current Shift Main Data
- Current Shift More Data
- Meter Totals Main Data
- Meter Totals More Data
- Meter Info

A complete list of memory items for each category can be found on page 13.

PRINT MENU

Step 1

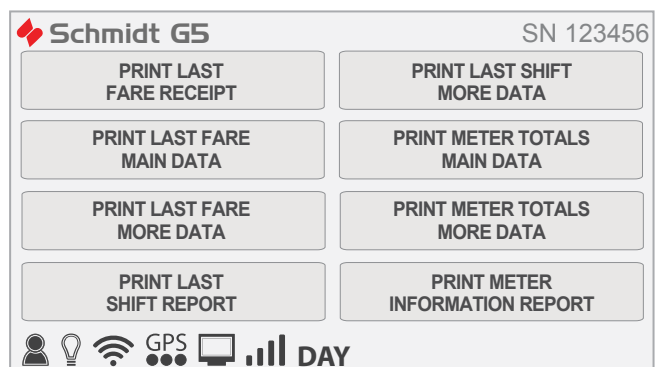

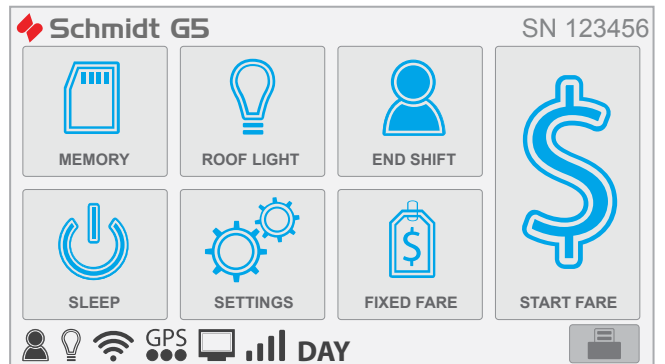

Menu Screen → Tap 

Step 2

Select the desired item to print.

There are 8 Print Options:

- Last Fare Receipt
- Last Fare Main Data
- Last Fare More Data
- Last Shift Report
- Last Shift More Data
- Meter Totals Main Data
- Meter Totals More Data
- Meter Information Report

SLEEP MODE

Sleep mode saves power, prevents the car battery from being flattened when the taxi is not in use and extends display life. It is recommended that you place the meter in sleep mode when not driving the vehicle.

Step 1

Enter Sleep Mode

Menu Screen → Tap *Sleep*

Step 2

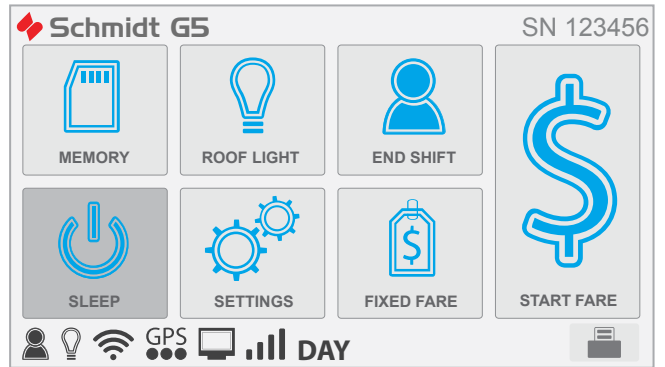

Wake up the meter

If the G5 taximeter has been in sleep mode for less than 4 hours.

- Tap the screen to wake up the G5 taximeter

If the G5 taximeter has been in sleep mode for more than 4 hours.

- Start the ignition to wake up the G5 Taximeter

22. Current Time Tariff
23. Driver Licence
24. Driver ABN

*Many items in the more data sections only appear if they are necessary. The bullet points are provided as an example.

When a fare, shift or meter totals include a toll road, that toll road will be added to the more data section. This is the same for the extras and the tariffs.
